

MZUZU UNIVERSITY

ACADEMIC YEAR 2018/2019 ADMISSIONS (UPGRADING PROGRAMMES INTAKE)

Applications are invited from suitably qualified persons for studies in various Upgrading programmes for Diploma and Degree for the 2018/2019 Academic Year. The applications should reach the University by **Friday, 27th July 2018**.

A. FACULTY OF EDUCATION

S#	Programme	Entry Requirements	Duration
1	Bachelor of Education (Arts)- Upgrading	<ul style="list-style-type: none"> • Diploma in Education or its equivalent obtained from a recognized institution of higher learning, • At least 2 years post diploma teaching experience, and • Evidence of MSCE or its equivalent. 	2 years
2	Bachelor of Education (Arts) – Upgrading	<ul style="list-style-type: none"> • At least 3 years teaching experience, and • MSCE or its equivalent with at least a credit in English (Language or Literature) and in any three of the following subjects: History, Geography, Social and Development Studies, Bible Knowledge, Chichewa and French. 	4 years
3	Bachelor of Education (Science) – Upgrading	<ul style="list-style-type: none"> • Diploma in Education obtained from a recognized institution with any 2 of the following teaching subjects: Mathematics, Physical Science, Physics, Chemistry, and Biology, • At least 2 years Post Diploma teaching experience, and • Evidence of MSCE or its equivalent. 	2 years
4	Bachelor of Education (Science) – Upgrading	<ul style="list-style-type: none"> • At least 3 years teaching experience, and • An MSCE with at least a credit in English (Language or Literature), Mathematics or Additional Mathematics, Biology, Physical Science or General Science or Physics and Chemistry. 	4 years
5	Bachelor of Education Science (ICT) -upgrading	<ul style="list-style-type: none"> • Diploma in Education majoring in Mathematics or Physical Science or equivalent obtained from a recognized institution, and • Evidence of MSCE or its equivalent. 	3 years

Programme Briefs

Bachelor of Education (Arts) and Bachelor of Education (Science)

These programmes are aimed at producing professional teachers for secondary schools in the following majors: French, History, Geography, English, Mathematics, Physics, Chemistry, Biology, Computer Studies, Theology and Religious Studies, and Religious and Moral Education.

B. FACULTY OF HUMANITIES AND SOCIAL SCIENCES

S#	Programme	Entry requirements	Duration
6	Bachelor of Arts (Theology and Religious Studies) – Upgrading	<ul style="list-style-type: none"> • Diploma in Theology and Religious Studies or its equivalent obtained from a recognized institution, and • Evidence of MSCE or its equivalent. 	2 years

S#	Programme	Entry requirements	Duration
7	Diploma in Security Studies- Upgrading	<ul style="list-style-type: none"> MSCE or its equivalent with at least six credits including English and Mathematics, and At least 2 years' work experience in recognisable defence or security service or related sectors. 	2 years
8	Bachelor of Arts (Security Studies) - Upgrading	<ul style="list-style-type: none"> Diploma in Peace and Security Studies or its equivalent, obtained from a recognised academic institution, At least 2 years' work experience in recognisable defence or security service or related sectors, and Evidence of MSCE or its equivalent. Graduates from related social science disciplines may apply. 	2 years
9	Bachelor of Arts (Communication Studies)	<ul style="list-style-type: none"> Diploma in Communication, Public Relations, Journalism or any related field obtained from a recognized institution, Evidence of MSCE or its equivalent 	3 to 4 years (Full time or Weekend)

Programme Briefs

Bachelor of Arts (Theology and Religious Studies)

The programme is designed to provide students with professional knowledge, skills and values within the context of religious studies. The degree will provide job opportunities and advancement for ethically oriented careers in public, private, non-governmental, and religious sectors.

Diploma and Bachelor of Arts in Security Studies

Graduates of these programmes will be equipped with professional knowledge and transferable skills in security sector management that will enable them respond to emerging challenges in the security sector with regard to such areas as conflict prevention and resolution, international humanitarian law, counter-terrorism, migration and development, diplomacy and international relations, intellectual property rights, public policy analysis, financial management, security and development, gender and security, and national security management among others. The programmes target middle and senior management from Defence, Police, National Intelligence Services, Immigration, Correction Service, Anti-Corruption Bureau, Revenue Collection Authority, Fiscal Management Services, Media, the Judiciary and civil society organizations working in the field of peace and security.

Bachelor of Arts in Communication Studies

The programme has been designed to offer adequate theoretical grounding as well as practical experience in communication and its role in socio-economic development, reputation management, media relations, strategic communication and corporate social responsibility among others.

C. FACULTY OF ENVIRONMENTAL SCIENCES

S#	Programme	Entry requirements	Duration
10	Bachelor of Science (Forestry) – Upgrading	<ul style="list-style-type: none"> Certificate in Forestry, Agriculture or other natural resources related fields obtained from a recognised institution, and MSCE with at least six credits in English, Biology, Mathematics, Physical Science/General Science or Chemistry and any other two science-related subjects obtained in not more than two sittings. Relevant work experience will be an added advantage. 	4 years
11	Bachelor of Science (Forestry) – Upgrading	<ul style="list-style-type: none"> Diploma in Forestry, Agriculture or other natural resources-related field obtained from a recognized institution, and MSCE, with at least credits in Biology, Mathematics or Additional Mathematics, Physical Science or Chemistry and Physics or General Science, English (Language or Literature) and any other two credits obtained in not more than two sittings. Relevant work experience will be an added advantage. 	3 years
12	Bachelor of Science (Fisheries and Aquatic Sciences) – Upgrading	<ul style="list-style-type: none"> Certificate in Fisheries Management/Science, Agriculture, Animal Science or its equivalent, obtained from a recognized institution, and MSCE with at least six credits in English, Biology, Mathematics, Physical Science/General Science or Chemistry and any other two science-related subjects. Relevant work experience will be an added advantage. 	4 years

13	Bachelor of Science (Fisheries and Aquatic Sciences) – Upgrading	<ul style="list-style-type: none"> • Diploma in Fisheries Science, Agriculture, Animal Science or its equivalent, obtained from a recognized institution, and • Evidence of MSCE or its equivalent. • Relevant work experience will be an added advantage. 	2 years
14	Bachelor of Science in Land Management (Land Surveying) –Upgrading	<ul style="list-style-type: none"> • Certificate in Land Administration or Land Surveying obtained from a recognised institution, • MSCE with not more than 36 points at least a credit in English (Language or Literature) and two other credits in Mathematics or Additional Mathematics, Geography, Physical Science or Physics and Chemistry or General Science. • Relevant work experience will be an added advantage. 	4 years
15	Bachelor of Science in Land Management (Estate Management) –Upgrading	<ul style="list-style-type: none"> • Certificate in Land Administration, Property Investment, Valuation, Estate Agency, Property Management, Property Development or Facilities Management or any other related field obtained from a recognised institution, • MSCE with not more than 36 points and at least credits in the following: Mathematics or Additional Mathematics, Geography, Agriculture, and • At least 2 years relevant work experience. 	4 years
16	Bachelor of Science in Land Management (Physical Planning) –Upgrading	<ul style="list-style-type: none"> • Certificate in Land Administration, Physical Planning, Environmental Management, Development Control or Housing Studies obtained from a recognised institution, • MSCE with not more than 36 points and at least credits in the following: Mathematics or Additional Mathematics, Geography, Agriculture, and • At least 2 years relevant work experience. 	4 years
17	Bachelor of Science in Land Management (Land Surveying) –Upgrading	<ul style="list-style-type: none"> • Diploma in Land Administration, Land Surveying, GIS, Engineering or Hydrographic Surveying from a recognised institution, and • At least 2 years relevant work experience, and • Evidence of an MSCE or its equivalent. • Graduates from related professions may apply. 	3 years
18	Bachelor of Science in Land Management (Estate Management) – Upgrading	<ul style="list-style-type: none"> • Diploma in Land Administration, Property Investment, Valuation, Estate Agency, Property Management, Property Development, Facilities Management or any other related fields, and • At least 2 years relevant work experience, and • Evidence of an MSCE or its equivalent. • Graduates from related professions may apply. 	3 years
19	Bachelor of Science in Land Management (Physical Planning) –Upgrading	<ul style="list-style-type: none"> • Diploma in Land Administration, Physical Planning, Development Control, Environmental Management or Housing Studies from a recognised institution, • At least 2 years relevant work experience, and • Evidence of an MSCE or its equivalent. • Graduates from related professions may apply. 	3 years
20	Bachelor of Science (Water Resources Management and Development) – Upgrading	<ul style="list-style-type: none"> • Diploma in Hydrology, Civil or Mechanical Engineering, Agriculture, or other water resources-related fields obtained from a recognised institution, • At least 2 years relevant work experience, and • Evidence of an MSCE or its equivalent. 	3 years

Programme Briefs

Bachelor of Science (Forestry)

The aim of this programme is to produce graduates with a blend of professional, scientific knowledge and transferable skills in technical, economic and social aspects of forestry, natural resources and environmental management. Main areas of training encompass forest science, forest resources management, forest products and utilization, forest engineering and social forestry among others. Graduates of the programme are expected to work in key areas of research, forest management, conservation and participatory forest resources management initiatives in private, public and non-governmental sectors.

Bachelor of Science (Fisheries and Aquatic Sciences)

Graduates of this programme will be equipped with scientific knowledge and technical and transferable skills to manage, restore, conserve, explore and utilise both capture and culture-based fisheries. The programme covers courses in limnology, ichthyology, fisheries management, fish processing and quality management, fisheries and aquaculture economics, and general aquaculture.

Bachelor of Science in Land Management (Land Surveying)

The programme aims to produce graduates specialised in land surveying. It combines scientific knowledge and technical skills to address land management challenges related to land surveying and therefore incorporates units that address land registration, cadastral surveying, hydrographic surveying, engineering surveying, remote sensing, and land information systems among others. The graduates of this programme are expected to practice as land surveyors with full recognition of local and international professional institutes.

Bachelor of Science in Land Management (Estate Management)

The programme aims to produce graduates specialised in estate management. It combines scientific knowledge and technical skills to address land management challenges related to real estate and therefore incorporates units that address property management, property valuation, property investment, estate agency, facilities management, and development among others. The graduates of this programme are expected to practice as estates management officers and valuers recognised by national and international professional institutes.

Bachelor of Science in Land Management (Physical Planning)

The programme aims to produce graduates specialised in physical planning. It combines scientific knowledge and technical skills to address land management challenges related to urban, regional and rural planning; housing and land tenure security; environmental planning and management; population dynamics; local governance; transportation planning among others. The graduates of this programme are expected to practice as physical planners in government, city and district councils, parastatals, NGOs or as planning and environmental consultants recognised by national and international professional institutes.

Bachelor of Science (Water Resources Management and Development)

Graduates in this programme will be equipped with professional, transferable skills, scientific and technical knowledge in water resources management and development, planning, engineering, environmental management, sanitation and hygiene. Opportunities await graduates of the programme as planners, consultants, managers and entrepreneurs in the private, public and non-governmental sectors.

D. FACULTY OF SCIENCE, TECHNOLOGY AND INNOVATION

S#	Programme	Entry Requirements	Duration
21	Bachelor of Science (Renewable Energy Technologies) – Upgrading	<ul style="list-style-type: none">• Diploma in Electrical or Mechanical Engineering or its equivalent, obtained from a recognised institution,• At least 2 years relevant work experience, and• Evidence of an MSCE or its equivalent.	3 years

Programme Briefs

Bachelor of Science (Renewable Energy Technologies)

The programme is aimed at producing specialists in renewable energy technologies (RETs) and in energy policy formulation and planning. Students are equipped with scientific, technical and theoretical skills in designing, installation, operation and maintenance of renewable energy systems such as hydro, solar, wind, geothermal, wave, solid biomass, biofuels and biogas. Furthermore, they are provided with skills to carry out energy supply and demand assessment, energy planning and policy analysis, environmental impact assessment, environmental auditing and addressing issues of environmental degradation, waste management and climate change.

Graduates from this programme are expected to work in government, industry, non-governmental organizations (NGOs) and as entrepreneurs in the fields of energy generation, transmission and distribution; energy consulting and contracting; energy regulation, planning and policy formulation; waste management and also in services such as health, housing, water supply, social welfare and community development.

E. FACULTY OF TOURISM, HOSPITALITY AND MANAGEMENT

S#	Programme	Entry Requirements	Duration
22	Bachelor of Science (Tourism) – Upgrading	<ul style="list-style-type: none">• Diploma in Travel Management or Tourism Management or any related field obtained from a recognized institution,• MSCE or its equivalent with an aggregate of not more than 36 points including a credit in English and Mathematics• A minimum of 2 years' working experience will be an added advantage.	3 years
23	Bachelor of Science (Hospitality Management) – Upgrading	<ul style="list-style-type: none">• Diploma in Hospitality or Hotel Management or any related field obtained from a recognized institution,• MSCE or its equivalent with an aggregate of not more than 36 points including a credit in English and Mathematics• A minimum of 2 years working experience will be an added advantage.	3 years

Programme Briefs

Bachelor of Science (Tourism)

Graduates in this programme will be equipped with professional, transferable skills, scientific and technical knowledge in tourism planning, management, research and development. Opportunities await graduates of the programme as planners, consultants, managers and entrepreneurs, in private, public and non-governmental sectors.

Bachelor of Science (Hospitality Management)

Graduates in this programme will be equipped with professional, transferable skills, scientific and technical knowledge in planning and management of the hospitality industry. Opportunities await graduates of both programmes as planners, consultants, managers and entrepreneurs in private, public and non-governmental sectors.

F. FACULTY OF HEALTH SCIENCES

S#	Programme	Entry Requirements	Duration
24	Bachelor of Science (Biomedical Sciences) – Upgrading	<ul style="list-style-type: none"> • Diploma in Biomedical Sciences or its equivalent obtained from a recognized institution, • An MSCE or its equivalent with at least 6 credits in English, Mathematics, Biology, Chemistry, Physics plus any other related science subjects • At least 2 years relevant work experience • Proof of current Medical Council of Malawi registration. 	2 years
25	Bachelor of Science (Honours) – (Optometry) Upgrading	<ul style="list-style-type: none"> • Diploma in Optometry or its equivalent obtained from a recognized institution, • Evidence of MSCE or its equivalent • At least 3 years of optometry clinical work experience. 	3 years
26	Bachelor of Science (Honours) – (Optometry) Upgrading	<ul style="list-style-type: none"> • Diploma in a health-related field obtained from a recognized institution • Evidence or MSCE or its equivalent • At least 3 years of clinical work experience. 	4 years

Programme Briefs

Bachelor of Science (Biomedical Sciences)

The programme provides students with scientific and practical knowledge and transferable skills in biomedical sciences in order to prepare them for a wide range of career opportunities and further training in health-related professions.

Bachelor of Science (Honours) - Optometry

This programme is designed to develop professionally and technically competent optometrists who will provide appropriate ocular health, refractive, contact lens and low vision services to a variety of patients in various clinical settings. The graduates of this programme will provide promotive, preventive, therapeutic and rehabilitative ophthalmic eye care services within the principles of primary health care.

G. INTERPRETATION OF INTERNATIONAL QUALIFICATIONS

Qualifications comparable to O-Level/IGCSE shall be interpreted as follows for purposes of admission: A*= 1; A = 2; B = 3; C = 5; D = 7; EFG = 8.

H. TUITION FEES AND SCHOLARSHIPS

1. Undergraduate students taking diploma and degree programmes are required to pay K400,000.00 tuition per academic year
2. Fees for Non-Malawian students per academic year

SADC	Non-SADC
USD 1,500	USD 3,500

All candidates will be admitted on self-sponsored category. Candidates will be expected to provide for their own board and lodge. Candidates selected for studies in education (science), fisheries, biomedical sciences, optometry, tourism, and in hospitality management have additional requirements such as protective clothing and upkeep during practical/attachment period. Most programmes also require students to do research projects and other academic related requirements. Candidates should therefore prepare for these additional costs. Detailed costs will be available to the successful students at a later stage.

I. APPLICATION PROCEDURE

Applications should be sent by post or delivered by hand at Mzuzu University Campus in the Registry.

All applicants should complete a Mzuzu University **2018/2019 Admission Application Form** and attach applicable copies of the following documents:

- a) Copies of their academic qualifications,
- b) Previous academic record (transcripts),
- c) MSCE or equivalent certificates,
- d) Curriculum vitae, and
- e) A copy of the application fee bank deposit slip

Application forms can be obtained from the Porters Lodge or Registry at Mzuzu University Campus or downloaded from the website www.mzuni.ac.mw

Completed applications should be returned with a non-refundable admission application fee of **K10,000** for Malawian applicants and US\$ 150 for international applicants. Applications submitted without the admission application fee will be disqualified.

Payment of Admission Application Fee

The application fee should be paid by depositing the amount of K10,000 into the following bank account:

Name of the Bank : NBS Bank
Account Name : Mzuzu University Fee Collection Account
Account Number : 14389172
Branch : Mzuzu Branch
Swift code (for international transfers): NBSTMWMW

Applicants must attach the **bank deposit slip** to the admission application form. The application fee is non-refundable.

Applications can be delivered by hand or sent to the following address:

2018/19 Admissions
University Registrar
Mzuzu University
Private Bag 201
Luwinga
MZUZU 2.

To reach the Registrar's Office not later than Friday, 27th July 2018.
