C. FACULTY OF ENVIRONMENTAL SCIENCES

S#	Programme	Entry requirements	Duration
9	Bachelor of Science (Forestry) – Upgrading	<ul style="list-style-type: none"> Certificate in Forestry, Agriculture or other natural resources related fields obtained from a recognised institution, and MSCE or its equivalent with at least six credits in English, Biology, Mathematics, Physical Science/General Science or Chemistry and any other two science-related subjects obtained in not more than two sittings. Relevant work experience will be an added advantage. 	4 years
10	Bachelor of Science (Forestry) – Upgrading	<ul style="list-style-type: none"> Diploma in Forestry, Agriculture or other natural resources-related field obtained from a recognized institution, and MSCE or its equivalent with six credits including English (Language and Literature), Biology, and Mathematics or Additional Mathematics. Relevant work experience will be an added advantage. 	3 years
11	Bachelor of Science (Fisheries and Aquatic Sciences) – Upgrading	<ul style="list-style-type: none"> Certificate in Fisheries Management/Science, Agriculture, Animal Science or its equivalent, obtained from a recognized institution, and MSCE or its equivalent with at least six credits in English, Biology, Mathematics, Physical Science or General Science or Physics and Chemistry, and any other two science-related subjects. Relevant work experience will be an added advantage. 	4 years
12	Bachelor of Science (Fisheries and Aquatic Sciences) – Upgrading	<ul style="list-style-type: none"> Diploma in Fisheries Science, Agriculture, Animal Science or its equivalent, obtained from a recognized institution, and Evidence of MSCE or its equivalent. Relevant work experience will be an added advantage. 	3 years
13	Bachelor of Science in Land Management (Land Surveying) –Upgrading	<ul style="list-style-type: none"> Certificate in Land Administration or Land Surveying obtained from a recognised institution, MSCE or its equivalent with not more than 36 points at least a credit in English (Language or Literature) and two other credits in Mathematics or Additional Mathematics, Geography, Physical Science or Physics and Chemistry or General Science. Relevant work experience will be an added advantage. 	4 years
14	Bachelor of Science in Land	<ul style="list-style-type: none"> Certificate in Land Administration, Property Investment, Valuation, Estate Agency, Property Management, Property Development or Facilities Management or any other related field 	4 years

	Management (Estate Management) –Upgrading	<ul style="list-style-type: none"> obtained from a recognised institution, MSCE or its equivalent with not more than 36 points and at least credits in the following: Mathematics or Additional Mathematics, Geography, Agriculture, and At least 2 years relevant work experience. 	
15	Bachelor of Science in Land Management (Physical Planning) –Upgrading	<ul style="list-style-type: none"> Certificate in Land Administration, Physical Planning, Environmental Management, Development Control or Housing Studies obtained from a recognised institution, MSCE or its equivalent with not more than 36 points and at least credits in the following: Mathematics or Additional Mathematics, Geography, Agriculture, and At least 2 years relevant work experience. 	4 years
16	Bachelor of Science in Land Management (Land Surveying) –Upgrading	<ul style="list-style-type: none"> Diploma in Land Administration, Land Surveying, GIS, Engineering or Hydrographic Surveying from a recognised institution, and At least 2 years relevant work experience, and Evidence of an MSCE or its equivalent. Graduates from related professions may apply. 	3 years
17	Bachelor of Science in Land Management (Estate Management) – Upgrading	<ul style="list-style-type: none"> Diploma in Land Administration, Property Investment, Valuation, Estate Agency, Property Management, Property Development, Facilities Management or any other related fields, and At least 2 years relevant work experience, and Evidence of an MSCE or its equivalent. Graduates from related professions may apply. 	3 years
18	Bachelor of Science in Land Management (Physical Planning) –Upgrading	<ul style="list-style-type: none"> Diploma in Land Administration, Physical Planning, Development Control, Environmental Management or Housing Studies from a recognised institution, At least 2 years relevant work experience, and Evidence of an MSCE or its equivalent. Graduates from related professions may apply. 	3 years
19	Bachelor of Science (Water Resources Management and Development) – Upgrading	<ul style="list-style-type: none"> Diploma in Hydrology, Civil or Mechanical Engineering, Agriculture, or other water resources-related fields obtained from a recognised institution, At least 2 years relevant work experience, and Evidence of an MSCE or its equivalent. 	3 years

Programme Briefs

Bachelor of Science (Forestry)

The aim of this programme is to produce graduates with a blend of professional, scientific knowledge and transferable skills in technical, economic and social aspects of forestry, natural resources and environmental management. Main areas of training encompass forest science, forest resources management, forest products and utilization, forest engineering and social forestry among others. Graduates of the programme are expected to work in key areas of research, forest management, conservation and participatory forest resources management initiatives in private, public and non-governmental sectors.

Bachelor of Science (Fisheries and Aquatic Sciences)

Graduates of this programme will be equipped with scientific knowledge and technical and transferable skills to manage, restore, conserve, explore and utilise both capture and culture-based fisheries. The programme covers courses in limnology, ichthyology, fisheries management, fish processing and quality management, fisheries and aquaculture economics, and general aquaculture.

Bachelor of Science in Land Management (Land Surveying)

The programme aims to produce graduates specialised in land surveying. It combines scientific knowledge and technical skills to address land management challenges related to land surveying and therefore incorporates units that address land registration, cadastral surveying, hydrographic surveying, engineering surveying, remote sensing, and land information systems among others. The graduates of this programme are expected to practice as land surveyors with full recognition of local and international professional institutes.

Bachelor of Science in Land Management (Estate Management)

The programme aims to produce graduates specialised in estate management. It combines scientific knowledge and technical skills to address land management challenges related to real estate and therefore incorporates units that address property management, property valuation, property investment, estate agency, facilities management, and development among others. The graduates of this programme are expected to practice as estates management officers and valuers recognised by national and international professional institutes.

Bachelor of Science in Land Management (Physical Planning)

The programme aims to produce graduates specialised in physical planning. It combines scientific knowledge and technical skills to address land management challenges related to urban, regional and rural planning; housing and land tenure security; environmental planning and management; population dynamics; local governance; transportation planning among others. The graduates of this programme are expected to practice as physical planners in government, city and district councils, parastatals, NGOs or as planning and environmental consultants recognised by national and international professional institutes.

Bachelor of Science (Water Resources Management and Development)

Graduates in this programme will be equipped with professional, transferable skills, scientific and technical knowledge in water resources management and development, planning, engineering, environmental management, sanitation and hygiene. Opportunities await graduates of the programme as planners, consultants, managers and entrepreneurs in the private, public and non-governmental sectors.

D. FACULTY OF SCIENCE, TECHNOLOGY AND INNOVATION

S#	Programme	Entry Requirements	Duration
20	Bachelor of Science (Renewable Energy Technologies) – Upgrading	<ul style="list-style-type: none"> • Diploma in Electrical or Mechanical Engineering or its equivalent, obtained from a recognised institution, • At least 2 years relevant work experience, and • Evidence of an MSCE or its equivalent. 	3 years

Programme Briefs

Bachelor of Science (Renewable Energy Technologies)

The programme is aimed at producing specialists in renewable energy technologies (RETs) and in energy policy formulation and planning. Students are equipped with scientific, technical and theoretical skills in designing, installation, operation and maintenance of renewable energy systems such as hydro, solar, wind, geothermal, wave, solid biomass, biofuels and biogas. Furthermore, they are provided with skills to carry out energy supply and demand assessment, energy planning and policy analysis, environmental impact assessment, environmental auditing and addressing issues of environmental degradation, waste management and climate change.

Graduates from this programme are expected to work in government, industry, non-governmental organizations (NGOs) and as entrepreneurs in the fields of energy generation, transmission and distribution; energy consulting and contracting; energy regulation, planning and policy formulation; waste management and also in services such as health, housing, water supply, social welfare and community development.

E. FACULTY OF HEALTH SCIENCES

S#	Programme	Entry Requirements	Duration
21	Bachelor of Science (Biomedical Sciences) – Upgrading	<ul style="list-style-type: none"> • Diploma in Biomedical Sciences or its equivalent obtained from a recognized institution, • At least 2 years relevant work experience • Proof of current Medical Council of Malawi registration. 	2 years
22	Bachelor of Science in Optometry (Honours) – Upgrading	<ul style="list-style-type: none"> • Diploma in Optometry or its equivalent obtained from a recognized institution, • Evidence of MSCE or its equivalent • At least 3 years of optometry clinical work experience. 	3 years
23	Bachelor of Science in Optometry (Honours) – Upgrading	<ul style="list-style-type: none"> • Diploma in Eye care and Clinical Medicine obtained from a recognized institution • Evidence of MSCE or its equivalent • At least 3 years of clinical work experience. 	4 years
24	Bachelor of Science in Nursing and Midwifery (upgrading)	<ul style="list-style-type: none"> • A College Diploma in Nursing and Midwifery or its equivalent from a recognised institution. • Current registration with the Nurses and Midwives Council of Malawi • A Malawi School Certificate of Education (MSCE) or its equivalent with at least 6 credits including English, Physical Science or General Science or Physics and Chemistry, Biology, Mathematics and any other two subjects. • Minimum of 3 years clinical working experience post NMT qualification. 	3 years

Programme Briefs

Bachelor of Science (Biomedical Sciences)

The programme provides students with scientific and practical knowledge and transferable skills in biomedical sciences in order to prepare them for a wide range of career opportunities and further training in health-related professions.

Bachelor of Science (Honours) - Optometry

This programme is designed to develop professionally and technically competent optometrists who will provide appropriate ocular health, refractive, contact lens and low vision services to a variety of patients in various clinical settings. The graduates of this programme will provide promotive, preventive, therapeutic and rehabilitative ophthalmic eye care services within the principles of primary health care.

Bachelor of Science in Nursing and Midwifery

The programme is aimed at producing a professional nurse midwife who will be equipped with professional, and scientific knowledge, positive attitudes and transferable, critical thinking skills in nursing and midwifery. The graduates will provide promotive, preventive, therapeutic and rehabilitative nursing and midwifery care in clinical, community and any other health-related setting.

Graduates from the programme are expected to work in Government and private hospitals, Non-Governmental Organizations (NGOs) and as entrepreneurs in the field of nursing, midwifery and other health related fields as managers, practitioners, clinical specialists, advisors and others.

F. FACULTY OF TOURISM, HOSPITALITY AND MANAGEMENT

S#	Programme	Entry Requirements	Duration
25	Bachelor of Science (Tourism) - Upgrading	<ul style="list-style-type: none"> Diploma in Travel Management or Tourism Management or any related field obtained from a recognized institution, MSCE or its equivalent with an aggregate of not more than 36 points including a credit in English and Mathematics 	3 years
26	Bachelor of Science (Hospitality Management) - Upgrading	<ul style="list-style-type: none"> Diploma in Hospitality Management, Hotel Management, or any related field obtained from a recognized institution. MSCE or its equivalent with an aggregate of not more than 36 points including a credit in English and Mathematics 	3 years
27	Bachelor of Arts (Sports Management)- Upgrading	<ul style="list-style-type: none"> Certificate in Sports Management or any related field obtained from a recognized institution of higher learning. MSCE or its equivalent with an aggregate of not more than 36 points. 	3 years
28	Diploma in Sports Management	<ul style="list-style-type: none"> Diploma in Sports Management or any related field obtained from a recognized institution of higher learning. MSCE or its equivalent with an aggregate of not more than 36 points. 	2 years

Programme Briefs

Bachelor of Science (Tourism) Programme

Graduates in this program will be equipped with professional, transferable skills, scientific and technical knowledge in planning, management, research and development of tourism. Opportunities await graduates of the programme in the Transport and Service industries including but not limited to Airlines, Airports, Travel agencies, Tour Operators, Car Hires and Destination Branding and Marketing, Private, Public and non-governmental sectors as well as entrepreneurs in the tourism and travel markets. Tourism management degree program provides students with the business, entrepreneurial and management skills necessary to run travel agencies, recreational business, tourism development agencies, International travel and tourism agencies, organise and plan tours, meetings as well as large conventions.

Bachelor of Science (Hospitality Management) Programme

The programme aims to equip graduates with diverse skills and knowledge to pursue careers in the hospitality operations and management. career opportunities await graduate for positions in hotels, restaurants, food service companies, institutional food service, food processing companies, cruise ship industry, airline industry, and other customer service related careers. Graduates of this programme can also pursue careers as consultants and entrepreneurs in the hospitality industry.

WEEKEND PROGRAMMES

I. FACULTY OF SCIENCE, TECHNOLOGY AND INNOVATION

SN	Programme	Entry Requirements	Duration
29	Diploma in Information and Communication Technology	<ul style="list-style-type: none"> Malawi School Certificate of Education or its equivalent obtained in not more than 2 sittings with at least six credits that should include English, Mathematics and any two of the following subjects (Physical Science/Physics and Chemistry, Geography, Biology, Computer Studies, Agriculture, Home Economics, Additional Mathematics) 	2 years
30	Bachelor of Science in Information and Communication Technology - Upgrading	<ul style="list-style-type: none"> Malawi School Certificate of Education or its equivalent with at least six credits and Diploma/Advanced Diploma in ICT or its equivalent obtained from a recognized institution. 	3 years

Programme Briefs

Diploma in Information and Communication Technology

The programme aims at developing a cadre of qualified ICT professionals and preparing students for further training in ICT related fields. Graduates from this programme have an added advantage of immediately proceeding into Bachelor of Science (Information and Communication Technology) – upgrading programme.

Bachelor of Science (Information and Communication Technology) – Upgrading

The aim of the programme is to train students to become ICT professionals who would be equipped with scientific and technical knowledge and transferable skills to plan and manage ICT services efficiently and effectively. The graduates from this programme are expected to be able to: design, develop, manage and support information systems; design, administer and maintain computer networks; manage and maintain computer hardware and software; establish and manage ICT – related businesses; conduct ICT – related research and consultancy and; provide expert advice on matters of ICTs.

II. FACULTY OF HUMANITIES AND SOCIAL SCIENCES

S#	Programme	Entry Requirements	Duration
31	Bachelor of Arts (Communication Studies)	<ul style="list-style-type: none"> MSCE or its equivalent with six credits including English and at least a pass in Mathematics. 	4 years
32	Bachelor of Arts (Communication Studies) - upgrading	<ul style="list-style-type: none"> Diploma in Communication Studies, Public Relations, Journalism, Education (Languages) or other related fields. Evidence of an MSCE or its equivalent. 	3 years
33	Diploma in Library and Information Science	<ul style="list-style-type: none"> MSCE or its equivalent with an aggregate of not more than 36 points in the best 6 subjects including English; Any non-LIS certificate 	2 years
34	Bachelor of Library and Information Science - upgrading	<ul style="list-style-type: none"> Diploma in Library and Information Science from a recognised institution Evidence of MSCE or its equivalent 	2 years

Programme Brief

The Bachelor of Arts Communication Studies has been designed to offer adequate theoretical grounding as well as to facilitate acquisition of practical experience in communication and its role in socio-economic development especially within the fields of reputation management, health communication, environment communication, strategic communication, integrated marketing communication and corporate social responsibility, among others.

III. FACULTY OF TOURISM, HOSPITALITY AND MANAGEMENT

S#	Programme	Entry Requirements	Duration
35	Diploma in Travel and Tourism Management	<ul style="list-style-type: none"> MSCE or its equivalent with an aggregate of not more than 36 points in best six subjects including English and Mathematics Those with Certificate in Travel Studies or any related field obtained from a recognised institution of higher learning may have an added advantage 	2 years
36	Diploma in Tour and Safari Guiding	<ul style="list-style-type: none"> MSCE or its equivalent with an aggregate of not more than 36 points in best six subjects Those with Certificate in Travel Studies, Tour guiding and Safari or any related field obtained from a recognised institution of higher learning will have an added advantage 	2 years
37	Diploma in Pastry and Bakery	<ul style="list-style-type: none"> Malawi School Certificate of Education (MSCE) or its equivalent Those with relevant industry experience and background will have added advantage 	2 years

G. Mode of Delivery for Weekend Programmes

The programmes are offered during weekends, fortnightly, as follows:

Friday 3:00 pm – 9:00 pm = 6 hours

Saturday 7:00 am – 12:00 pm = 5 hours

1:00 pm – 6:00 pm = 5 hours

Sunday 7:00 am – 12:00 pm = 5 hours

H. INTERPRETATION OF INTERNATIONAL QUALIFICATIONS

Qualifications comparable to O-Level/IGCSE shall be interpreted as follows for purposes of admission: A*= 1; A = 2; B = 3; C = 5; D = 7; EFG = 8.

I. TUITION FEES AND SCHOLARSHIPS

- Fees for all other programmes **except**, Bachelor of Nursing and Midwifery is **K400, 000. 00** per academic year.

Please note that fees is subject to revision as may be determined by Council from time to time, with or without notice.

- Fees for Non-Malawian students per academic year

<u>SADC</u>	<u>Non-SADC</u>
USD 1,500	USD 3,500

All candidates will be admitted on self-sponsored category. Candidates will be expected to provide for their own board and lodge. Candidates selected for studies in education (science), fisheries, biomedical sciences, optometry, tourism, and in hospitality management have additional requirements such as protective clothing and upkeep during practical/attachment period. Most programmes also require students to do research projects and other academic related requirements. Candidates should therefore prepare for these additional costs. Detailed costs will be available to the successful students at a later stage.
