

**MZUZU
UNIVERSITY**

PRESS RELEASE

ACADEMIC YEAR 2024/2025 ADMISSIONS (POSTGRADUATE PROGRAMMES INTAKE)

Applications are invited from suitably qualified candidates to apply for various Postgraduate Programmes for the 2024/2025 Academic Year.

A. FACULTY OF EDUCATION

MASTER OF EDUCATION (EDUCATION LEADERSHIP & MANAGEMENT) AND MASTER OF EDUCATION (TEACHER EDUCATION) PROGRAMMES

The Faculty of Education is inviting applications from suitably qualified persons for admission into 2-year full time degree programmes leading to the award of Master of Education in Educational Leadership & Management and Master of Education in Teacher Education. The two programmes are structured as follows:

1. Full-time taught course work in the first academic year (two semesters)
2. Research in the second and final academic year (two semesters).

Programme Description

i) Master of Education (Educational Leadership & Management)

This Programme aims at enabling students to develop skills in educational leadership and management, expose them to contemporary discourses in the discipline and to empower the graduate with knowledge and skills in educational policy formulation, analysis, implementation and evaluation.

ii) Master of Education (Teacher Education)

This Programme aims at enabling students to develop knowledge and critical understanding of teacher education with respect to key concepts, assumptions teaching methodologies, current advances and theoretical approaches. Students will acquire skills in methods of inquiry, problem solving, lifelong learning, and social responsibility.

Entry Requirements

1. A Bachelor's degree in Education from an accredited institution of higher learning, or
2. A Bachelor's degree from accredited institution plus a University Certificate in Education (UCE), or Post- Graduate Certificate in Education (PGCE) or its equivalent.
3. Teaching experience at secondary school or tertiary institution will be an added advantage.

Duration of the programme

This is a full-time programme and will run for a period of four semesters (2 academic years).

Programme Fees

The following fees will apply:

- Malawian Nationals - The fees payable per student for one academic year is MK 1, 950,000.00
- Other Nationals - The fees payable per student for one academic year is US\$ 4,000 for SADC nationals and US\$ 5,000 for non-SADC nationals

B. FACULTY OF ENVIRONMENTAL SCIENCES

i. DOCTOR OF PHILOSOPHY (PhD) STUDIES IN THE FACULTY OF ENVIRONMENTAL SCIENCES

The Faculty of Environmental Sciences is inviting applications for a three-year Doctor of Philosophy (PhD) study programme in any one of the following specialisations:

- Fisheries and Aquatic Sciences
- Forestry and Environmental Management
- Geoinformatics
- Sanitation
- Urban and Regional Planning
- Water Resources Management

Background

The Faculty of Environmental Sciences offers Doctor of Philosophy (PhD) Degree qualifications in Environmental Sciences allowing candidates to specialise in Fisheries and Aquatic Sciences, Forestry and Environmental Management, Urban and Regional Planning Sanitation, and Water Resources Management. The programme aims to build capacity of professionals to discover innovative and reliable ways of sustainably managing natural resources, adding value, planning and managing the urban environment and planning regions.

The programme equips graduates with transferable skills to collect, analyse, interpret and present often diverse datasets and use analytical tools such as numerical models that are valuable in the job market. The programme also equips graduates with the ability to participate in often complex decisions and processes of environmental risk management.

Programme's Description and Expectations

The Programme is designed as learning experiences based on modules and research with supervision, and the interaction with fellow students and other experts in the field as additional elements of learning. The students will have to undergo modules that will support research based on specific areas of specialisation. As a PhD student, you will be required to tutor undergraduate and graduate students under the guidance of the Head of the Department.

Entry Requirements

Applicants must have the following:

SN	Programme	Entry requirements
1	PhD in Fisheries and Aquatic Sciences	<ul style="list-style-type: none">• MSc in Fisheries and Aquatic Science, Aquaculture and Fisheries Science or any related field from an accredited institution of higher learning.
2	PhD in Forestry and Environmental Management	<ul style="list-style-type: none">• MSc in Forestry and Environmental Management or any related field from an accredited institution of higher learning.
3	PhD in Sanitation	<ul style="list-style-type: none">• A Master's Degree in Sanitation, Public Health, Integrated Sanitation Management, Chemistry, Environmental Health or any related field from an accredited institution of higher learning.

4	PhD in Urban and Regional Planning	<ul style="list-style-type: none"> • A Master's Degree in Urban Planning, Regional Planning, Rural Development Studies, Geography, Earth Sciences, Urban Studies, Disaster Management, Housing Development, Development Studies, Urban Development and Management, Local Governance, Land Governance, Transport Planning, Environmental Management, Urban Water and Sanitation, Population Studies, Urban Health, Urban Security or any related field from an accredited institution of higher learning. • Those with evidence of publications have an added advantage.
5	PhD in Water Resources Management	<ul style="list-style-type: none"> • Master's Degree in Water Resources Management and Development, Irrigation Engineering, Civil Engineering, Water Resources Modelling, Integrated Water Resources Management, Environmental Science or any other related field from accredited institution of higher learning.

Programme Fees

The following fees will apply:

- Malawian Nationals - The fees payable per student for one academic year is MK 1,482,000.00
- Other Nationals - The fees payable per student for one academic year is US\$ 5,500 for SADC nationals and US\$ 5,700 for non-SADC nationals

Please note that fees are subject to change from time to time.

ii. MASTER OF SCIENCE (MSc) STUDIES IN THE FACULTY OF ENVIRONMENTAL SCIENCES

The Faculty of Environmental Sciences is inviting applications for a two-year Master of Science (MSc) study programmes in:

- Fisheries and Aquatic Sciences
- Forestry and Environmental Management
- Geoinformatics (GIS)
- Urban and Regional Planning
- Water Resources Management

- Sanitation

Background

The Faculty of Environmental Sciences offers Master's degrees in Environmental Sciences allowing candidates to specialise in specific environmental issues in Forestry and Environmental Management, Fisheries and Aquatic Sciences, Water Resources Management, Sanitation, Urban and Regional Planning and Geoinformatics (GIS). The programmes aim to build capacity of professionals to discover innovative and reliable ways of sustainably managing natural resources, value addition, as well as planning and managing the urban and rural environments.

Studies in environmental sciences will equip graduates with useful transferable skills to collect, analyse, interpret and present often diverse datasets and to use analytical tools such as numerical models that are valuable in the job market. The programmes will also equip candidates with the ability to make and participate in often complex decisions and assess risks associated with social and environmental management.

Programme Description and Expectations

The programmes are designed as learning experiences based on course work and research, using supervision and interaction as learning elements. The students will have to undergo courses that will support research based on specific areas of specialisation. These programmes are offered through these departments: Department of Fisheries and Aquatic Sciences, Department of the Built Environment (DBE), Department of Water and Sanitation (DWAS), Department of Agri-sciences, Department of Forestry and Environment. As a postgraduate student, you will be required to tutor undergraduate students under the guidance of the Head of Department.

Prerequisites for admission

Applicants must have the following:

SN	Programme	Entry requirements
1	MSc in Fisheries and Aquatic Sciences	<ul style="list-style-type: none"> • BSc in Fisheries and Aquatic Science, Aquaculture and Fisheries Science or any related field from an accredited institution of higher learning.
2	MSc in Forestry and Environmental Management	<ul style="list-style-type: none"> • BSc Degree in Forestry and Environmental Management or any related field from an accredited institution of higher learning.

3	MSc in Geoinformatics (GIS)	<ul style="list-style-type: none"> • Bachelor's Degree in Land Surveying, Hydrographic Surveying, Engineering Surveying, Geodesy, Cadastral Surveying, Cartography, Remote Sensing, Geography, Physical Planning, Demography any related field from an accredited institution of higher learning.
4	MSc in Urban and Regional Planning	<ul style="list-style-type: none"> • Bachelor's Degree in Urban Planning, Regional Planning, Rural Development Studies, Geography, Earth Sciences, Urban Studies, Disaster Management, Housing Development, Development Studies, Urban Development and Management, Local Governance, Land Governance, Transport Planning, Environmental Management, Urban Water and Sanitation, Population Studies, Urban Health, Urban Security any related field from an accredited institution of higher learning.
5	MSc in Water Resources Management	<ul style="list-style-type: none"> • Bachelor's Degree in Water Resources Management, Water Resources Modelling, Irrigation Engineering, Integrated Water Resources Management, Environmental Science any related field from an accredited institution of higher learning.
6	MSc in Sanitation	<ul style="list-style-type: none"> • Bachelor's Degree in Sanitation, Public Health, Integrated Sanitation Management, Chemistry, Environmental Health any related field from an accredited institution of higher learning.

Duration of the programmes

All Master of Science programmes will run for a period of four semesters (2 academic years). An extension of one year could be considered subject to approval after satisfying certain conditions.

Programme Fees

The following fees will apply:

- Malawian Nationals - The fees payable per student for one academic year is MK 2,000,000.00
- Other Nationals - The fees payable per student for academic year is US\$ 4,000 for SADC nationals and US\$ 5,130 for non-SADC nationals

NOTE: Fees are subject to change from time to time.

C. FACULTY OF SCIENCE, TECHNOLOGY AND INNOVATION

i. MASTER OF SCIENCE (MSc) IN INFORMATION THEORY, CODING AND CRYPTOGRAPHY

Applications are invited from suitably qualified candidates for admission into the Master of Science in Information Theory, Coding and Cryptography Degree Programme in the Department of Mathematics and Statistics at Mzuzu University.

Programme Description

Information Theory is an area of mathematics dealing with the transfer of information from one location to another or the storage of information for later retrieval. Both of these operations can be regarded as passing information or data through a channel from a source to a receiver. There are three central aspects of the subject:

- Efficiency - efficient encoding of the information (source coding or data compression)
- Reliability - removal of errors caused by noise in the channel (error control coding)
- Security - protection against eavesdropping, intrusion, or tampering (cryptography)

These three topics, which we collectively refer to as Coding Theory, are live and exciting areas of research today. The great advances in all types of electronic communication over the past few years are, in part, due to continuing developments in Coding Theory. Mzuzu University through the Department of Mathematics and Statistics is offering a Master of Science programme in Information Theory, Coding, and Cryptography, which will allow qualified Malawians and other interested qualified persons to become involved at the highest levels of research in the whole area of Coding Theory. Graduates, besides taking part in research at the highest levels of mathematics, should eventually be able to apply the knowledge gained in this course to many areas, including, but not limited to; mobile telephony, high density computer and optical disks, digital audio, internet services, miniaturisation in electronic device.

Duration of the programme

This is a full-time programme and will run for a period of four semesters (2 academic years).

Coursework

The programme includes the following taught courses which will be done in the first two semesters: Information Theory, Error Correcting Codes, Cryptography, Practical

Cryptography, Graphs and Designs, Data Compression, Graph Theoretical Codes and Goppa Codes.

Research project

The second year of the Programme will be devoted towards a research project.

Entry requirements

Applicants must have an honour's degree in mathematics or in a closely related field with significant mathematical content from an accredited institution. Those with an ordinary bachelor's degree in mathematics or a closely related field with significant mathematical content from an accredited institution will also be considered. Those with Upper Second Class or First Class of their equivalent will have an added advantage. A transcript should show that an applicant completed at least one of the following courses: linear algebra, number theory, group theory, abstract algebra, or any other related course. Candidates will be expected to also send the following in response to an advertisement for intake:

- (a) Certified copies of academic qualifications
- (b) Certified copies of academic transcripts

Programme Fees

The following fees will apply:

- Malawian Nationals – The total fees payable per student for two academic years is MK 4,680,000.00
- Other Nationals – The fees payable per student for one academic year is US\$ 3,500 for SADC nationals and US\$ 5,000 for non-SADC nationals

Students are advised to bring along a book and stationery allowance of US\$ 350 per year.

NOTE: Fees are subject to change from time to time.

ii. MASTER OF SCIENCE (MSc) IN APPLIED CHEMISTRY BY RESEARCH

Programmes Description and Expectations

The Master of Science in Applied Chemistry programme is aimed at equipping students with extensive chemistry knowledge and appropriate transferable skills to allow them to participate in worthwhile demand-driven research, technology and innovation as well as independent leadership and management of complex work and development situations within the field of Applied Chemistry and Chemical Sciences. The programme also offers students with entrepreneurial and small scale-production industry skills.

The programme is offered by research with module orientation to support research work. The programme has the following stages: Research proposal development supported by module orientation; proposal open defence; research work; thesis write-up; external and internal thesis examination; and final thesis open and closed defence. The programme is for 2 years. The MSc students are expected to attend modular classes and defend their research proposals within the first year of study.

Students enrolled in the programme will be expected to conduct their research in a number of areas in applied chemistry, including but not limited to analytical chemistry, environmental chemistry, plant protection, value chain, food chemistry, medicinal chemistry and herbal medicine, nutrition, waste management, remediation of contaminated/polluted water, wastewater and soil resources supporting food systems, material chemistry, nanochemistry, biotechnology, climate resilience, nutrient management and indigenous knowledge systems.

Entry requirements

Applicants will be required to have a Bachelor's Degree (or its equivalent) in science with good background knowledge of Chemistry from an accredited institution. Work or field experience in chemistry-related research will be an added advantage. Successful students will be expected to develop research proposal in liaison with their supervisors.

PROGRAMME FEES

The fees payable per student for academic year is MK2,700,000.00 for Malawian Students, US\$ 3, 450 for SADC nationals and US\$ 4,500 for non-SADC nationals.

iii. DOCTOR OF PHILOSOPHY (PhD) IN INFORMATION THEORY, CODING AND CRYPTOGRAPHY

Applications are invited from suitably qualified candidates for admission into the Doctor of Philosophy in Information Theory, Coding and Cryptography Degree Programme in the Department of Mathematics and Statistics at Mzuzu University.

Programme description

The PhD in ITCC is a research programme designed to develop fundamental understanding on a particular focus area of one or more of Information Theory, Error Correcting Codes and Cryptography or related areas. Emphasis is placed on developing the ability to recognise significant research problems, formulating solutions and transmitting outcomes to others. Candidates are expected to identify a research problem with the help of a supervisor. They should familiarise themselves with all literature and present knowledge on the subject. Students are required to carry out research and produce original work which is publishable in reputable journals. The original results of the research should be written in form of a dissertation consisting of not less than 100 pages. The usual international standards should be adhered to including having the moderation of external examiners.

Duration of the programme

Candidates will be admitted on fulltime or part-time basis. For fulltime students, the duration of the programme will not exceed 4 years. For part-time students, the duration will not exceed 6 years.

Mode of delivery

This is a research programme. It will be offered either as a fulltime programme or as a part-time programme.

Course work

The programme will have no taught courses. However, the MSc (Information Theory, Coding and Cryptography) courses will be offered as audit courses to those interested.

Research outputs, patents and innovations

Candidates will be expected to do original research on a particular area of Information Theory, Error Correcting Codes, Cryptography or related areas. During the course of the programme, candidates will be expected to publish at least two peer-reviewed papers and make presentations at international conferences.

Entry requirements

Applicants for PhD (ITCC) must have a Master's Degree in Information Theory, Coding and Cryptography -MSc (ITCC) - or in a closely related field from an accredited institution. Those with peer reviewed journal articles in a related field will have an added advantage. Candidates will be expected to also send the following in response to an advertisement for intake: (a) Certified copies of their academic qualifications; (b) Certified copies of their academic transcripts; (c) A concept note.

Programme Fees

The following fees will apply:

- Malawian Nationals – The total fees payable per student for one academic year is MK 2,080,000.00
- Other Nationals – The fees payable per student for one academic year is US\$ 2,000 for SADC nationals and US\$ 2,600 for non-SADC nationals

Students are advised to bring along a book and stationery allowance of US\$ 450 per year.

NOTE: Fees are subject to change from time to time.

iv. DOCTOR OF PHILOSOPHY (PhD) IN APPLIED CHEMISTRY

Programme Description and Expectations

The PhD programme is designed for postgraduate students who wish to become high-level experts in Science, Technology and Innovation, while applying knowledge of chemistry and chemical sciences for wealth creation. The programme aims at contributing to local, regional and global human capital development by providing self-motivated and knowledgeable professionals with relevant and high-level academic excellence coupled with worthwhile technological and innovative skills to be able to respond to the needs of both the labour market and society. The programme is also aimed at producing developed high cadre of future educators with adequate ability to contribute to the development of talented professionals in Chemistry, capable of effectively executing worthwhile STI programs and communicating science for integration between higher education institutions and local community in various sectors. The programme will also offer students with entrepreneurial and small scale-production industry skills.

The Programme is offered by research, with module orientation to support research work. It has the following stages: Research proposal development supported by module orientation; proposal open defence, research work; thesis write-up, external and internal thesis examination and final thesis open and closed defence. The PhD Programme is a 3 to 4 years (not exceeding 4 years) programme. The PhD students are expected to attend modular classes and defend their research proposals within the first year of study.

Students enrolled in this programme will be expected to conduct research in areas of Applied Chemistry. These areas include, but not limited to: plant protection, agriculture value chain, food chemistry, medicinal chemistry, nutrition, waste management, water chemistry, soil chemistry, air chemistry, nanochemistry, biotechnology, climate resilience, nutrient management, indigenous knowledge systems, neglected and underutilised biodiversity, electrochemistry and fuel cell research, hydrogeochemical modelling, materials and polymer chemistry, inorganic chemistry, analytical chemistry, natural products chemistry, nanotechnology, environmental chemistry, forensic and computational chemistry, among others.

Entry requirements

Applicants into the PhD in Applied Chemistry Programme should have a good Master of Science Degree (or its equivalent) in Science or its equivalent with sound theoretical knowledge of Chemistry, chemical technology, chemical sciences and chemical engineering from a well-recognised institution of higher learning. Expert knowledge, work or field experience in chemistry-related research, technology and innovations will be an added advantage. Applicants should possess excellent command of written and spoken English language skills coupled with the ability to publish in internationally peer reviewed scientific journals. In addition, teamwork skills and the willingness to actively cooperate with diverse international working groups including natural scientists, technologists, innovators, chemical scientists, chemical engineers, environmental scientists, and social scientists are required. Female applicants and persons with disabilities who have comparable qualifications are encouraged to apply.

PROGRAMME FEES

The fees payable per student for academic year is MK3,900,000.00 for Malawian Students, US\$ 4,500 for SADC nationals and US\$ 5,500 for non-SADC nationals.

D. FACULTY OF HUMANITIES AND SOCIAL SCIENCES

i. MASTER OF ARTS (MA) IN THEOLOGY AND RELIGIOUS STUDIES

Applications are invited from suitably qualified candidates for admission into the Master of Arts (MA) Programme in Theology and Religious Studies at Mzuzu University.

Nature of the programme:

The Programme is by research without residential requirement. Other requirements include attendance at:

- i. Postgraduate introductory seminar

- ii. Monthly regional seminars in Mzuzu, Lilongwe and Zomba
- iii. Annual postgraduate colloquium

Students will be examined on the basis of a thesis/dissertation submitted at the end of the programme.

Entry requirement:

- A Bachelor's degree in Theology and Religious Studies or its equivalent from an accredited institution. Those with credit or distinction will have an added advantage.

Duration of the programme

The programme will run for a period of four semesters (2 academic years).

Programme fees

The following fees will apply:

- Malawian Nationals - The fees payable per student for one academic year is K1,950,000.00
- Other Nationals – The fees payable per student for one academic year is US\$ 4,000.00 for SADC nationals and US\$ 5,000 for non-SADC nationals

NOTE: Fees are subject to change from time to time.

ii. MASTER OF ARTS (MA) IN AFRICAN HISTORY AND HERITAGE

Applications are invited from suitably qualified persons for a 2-year full-time Master of Arts (MA) in African History and Heritage at Mzuzu University.

Aim of the Programme

The aim of the programme is to promote and impart advanced theoretical and practical advanced theoretical and practical knowledge and skill related to African History, culture and heritage knowledge for purpose of asserting the uniqueness of our African identity. The programme also intends to produce human resource for history teaching as well as managers of cultural and heritage institutions such as the museums, Department of Antiquities, UNESCO, and the Malawi National Archives. The programme shall also generate knowledge for the conservation of cultural and heritage in the country.

Nature and length of the Programme

The MA in African History and Heritage shall run for two years. It consists of taught courses in the first year and a thesis in the second year. Candidates shall take six taught modules, three in each of the first-year semesters. In the second year, candidates shall undertake a thesis. The first semester of the second year shall be devoted to data collection, while the second semester of the same year shall be devoted to thesis writing.

Entry Requirements

- Interested candidates should have a Bachelor's degree in History and Heritage Studies, or History from an accredited institution with sufficient coverage of History content.

Duration of the programme

The programme will run for a period of four semesters (2 academic years).

Programme fees

The following fees will apply:

- Local students - The fees payable per student for one academic year is K1,950,000.00
- Foreign students – The fees payable per student for one academic year is US\$ 4,000.00 for SADC nationals and US\$ 5,000.00 for non-SADC nationals

iii. MASTER OF ARTS (MA) IN APPLIED LINGUISTICS (LAW ENFORCEMENT DISCOURSE)

Programme Description

The Programme is multidisciplinary cutting across the fields of Linguistics, Law and Criminology. The Programme is designed to train experts in linguistics, police personnel, lawyers, correctional services personnel and immigration officials working on the language matrix of law. In this programme, language is seen and analysed as one of the core drivers of social injustices as well as a mediator of social conflicts and crimes. In an effort to have a free and fair justice system, there is, therefore, need for some in-depth awareness of the injustices that are created by language and can be resolved by language.

Nature and duration of the Programme

The Programme will be offered in two years. The first year will be dedicated to course work. Students will be expected to study eight modules, namely Linguistics and Discourse; Fundamentals of Law, Language Rights; Forensic Criminology; Legal Language; Applied Theories in Forensic Linguistics; Courtroom Discourse; Language in Evidence, and Language Crimes.

Mode of delivery

The Programme will be offered through block-release.

Entry Requirements

Applicants must have a Bachelor's degree in Linguistics, Law, Security Studies, Law Enforcement, Criminology or any other related field from an accredited institution of higher learning.

Programme Fees

The total fees payable per academic year are as follows:

- MK 1,950,000.00 per year for Malawian nationals
- US\$ 5,000 per year for SADC nationals
- US\$ 8,050 per year for full-time non-SADC nationals

NOTE: Fees are subject to change from time to time

iv. DOCTOR OF PHILOSOPHY (PhD) IN THEOLOGY AND RELIGIOUS STUDIES

Applications are invited from suitably qualified candidates for admission into the Doctor of Philosophy (PhD) Programme in Theology and Religious Studies at Mzuzu University.

Nature of the programme:

The Programme is by research without residential requirement. Other requirements include attendance at:

- Postgraduate introductory seminar
- Monthly regional seminars in Mzuzu, Lilongwe and Zomba
- Annual postgraduate colloquium

Students will be examined on the basis of a thesis/dissertation at the end of the programme.

Entry requirement:

- A Master's degree in Theology and Religious Studies or its equivalent from an accredited institution.

Programme duration:

The programme will run for a period of three years.

Programme fees

The following fees will apply:

- Malawian Nationals - The fees payable per student for one academic year is K1,950,000.00
- Other Nationals – The fees payable per student for one academic year is US\$ 5,500.00 for SADC nationals and US\$ 5,700.00 for non-SADC nationals

NOTE: Fees are subject to change from time to time.

E. FACULTY OF TOURISM, HOSPITALITY AND MANAGEMENT

MASTER OF TOURISM AND HOSPITALITY

MANAGEMENT

Applications are invited from suitably qualified candidates to apply for a two-year full-time **Master of Tourism and Hospitality Management (MTHM)** at Mzuzu University for the 2024/2025 Academic Year.

Programme Description and Aim

The programme is pivoted on theoretical and conceptual discourses in tourism and hospitality as fields of study as well as the promotion of advanced research in the area. The aim of the programme is to impart and promote advanced theoretical and practical knowledge and skills in tourism and hospitality which is responsive to national, regional and international needs. The programme will contribute to the development of the country through the creation and dissemination of tourism and hospitality knowledge backed by research. The programme will produce highly trained inter-disciplinary oriented professionals with diverse knowledge and competencies in all aspects of tourism and hospitality.

Nature and Duration of the Programme

This programme will run for a period of two (2) academic years (four semesters). The programme consists of taught courses in the first year and a research project in the second year. Candidates shall take ten (10) taught courses; five (5) courses in each of the two first-year semesters. The second academic year will consist of a research project culminating into an examinable thesis.

Mode of Delivery

The programme shall be delivered through block release.

Entry Requirements

Candidates should have a Bachelor's Degree in any of the following fields: Tourism Management; Hospitality Management; Cultural and Heritage Tourism Studies; Culinary Arts, Food and Beverage Management; Accommodation Management; and Travel and Aviation Management or related fields from an accredited institution of higher learning

Or

A Bachelor's Degree in a non- Tourism or Hospitality Management discipline from an accredited institution of higher learning, but with at least two years of relevant work experience in the tourism and hospitality management.

Programme Fees

The total fees payable per academic year are as follows:

- MK2,000,000.00 per year for Malawian nationals
- US\$ 4,000.00 per year for SADC nationals
- US\$ 5,130.00 per year for full-time non-SADC nationals

Please note that fees are subject to change from time to time.

G. GENERAL INFORMATION

i. BOOK AND STATIONERY ALLOWANCE

Students are advised to bring along a book and stationery allowance estimated at US\$ 350 per year.

ii. ACCOMODATION

All candidates will be admitted on self-sponsored category. Candidates will be expected to provide for their own accommodation.

iii. APPLICATION PROCEDURES

Eligible Master Programmes applicants should submit their application packages, which must include the following:

- A letter of application providing motivation for the application,
- Updated *Curriculum Vitae*,

- Two letters from academic referees,
- Copies of academic certificates,
- Copies of academic transcripts,
- Copy of bank deposit slip for application fee.

Eligible Doctor of Philosophy (PhD) applicants should submit application dossiers, which must include the following:

- A letter of application providing motivation for the application,
- Updated *Curriculum Vitae*,
- Three traceable referees (at least two from academia),
- Two reference letters (at least one from academia),
- Copies of academic certificates,
- Copies of certified academic transcripts,
- A research concept in the area of specialization of approximately one thousand words,
- Copy of bank deposit slip for application fee.

Payment of Admission Application fee

All applicants should pay a non-refundable admission application fee of **K25,000.00** for Malawian applicants and **US\$150** for international applicants. The application fee should be deposited directly into the following bank account:

Name of the Bank : NBS Bank
Account Name : Mzuzu University Admission Account
Account Number : 21430908
Branch : Mzuzu Branch
 Swift code (for international transfers): NBSTMWMW

The bank deposit slip should be attached to the application letter.

Completed application documents should be sent to:

[...name of programme being applied for...] **2024/25 Admissions**

University Registrar Mzuzu University

Private Bag 201

Luwinga,

Mzuzu 2

NB: For international applicants, applications by email will be accepted.

All applications should reach the Registrar's Office not later than **Friday, 26th July 2024**.
